

The All New House Beautiful - April/May 2007

**2007 Kips Bay Show House**

*The Terracel*

The contemporary monochromatic roof terrace has been planted with an evergreen framework of hedging and highlighted with seasonal white tulips. Pale grey natural stone paving and custom dark-stained timber joinery compliment contemporary resin furniture and custom made lead coated and acid washed planters.

**Q & A:**

What's the idea behind your room?

*The idea behind his room is "traditional with a twist" or a new take on the traditional outdoor setting.*

What the most successful thing about it for you?

*The most successful part of the balcony are the chairs, definitely the most attention grabbing.*

What are three things you don't want anyone to miss when visiting it?

*Don't miss the "Nouvelle Vague" chairs, the truffle chairs and the Purisma tulips.*

What's the most expensive piece in the room?

*Most expensive are the custom made lead coated copper planters.*

What's the least expensive?

*Least expensive are the black terracotta pots with Hydrangeas in them.*

Other than your own, which room in the house is your favorite?

*The Foyer is my other favorite room.*
